

Top Cards Game Instructions

A 2 player game

1. Shuffle all the cards face down.
2. Share the cards between the two players and keep them face down in a pile. The player with one more card begins the game.
3. The starting player selects the topmost card from their pile and chooses a category from that card (date opened, lines served at the station or usage per year) that they think will have a higher value than their opponent.
4. The opponent reveals their topmost card from their pile and the players compare the same category.
5. The winner (the largest value), takes both cards and places them at the bottom of their pile.
6. The winner selects the next topmost card and chooses the category for the next round.

The winner is the player who has all the cards.
