

Spring Term
KS2 Pupil Voice
D&T

Why is Design and Technology important?

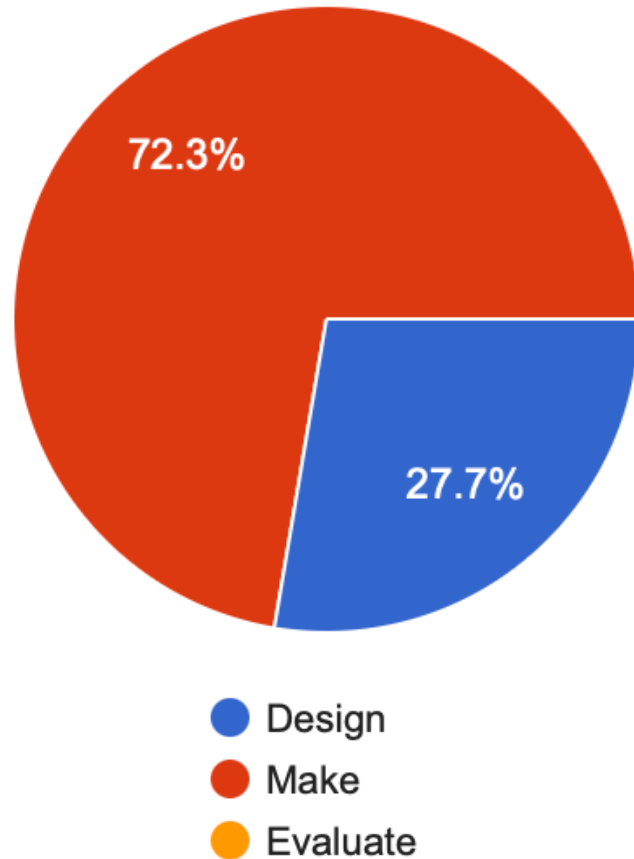

- Because we get to be creative and inventive.
- It teaches you how to cook safely.
- Because it helps you learn how things are made.
- So we can learn skills for construction and engineering.
- It helps us to create things for different purposes.
- Teaches you how to do lots of things for example cooking, using a saw and a glue gun
- For you to learn construction techniques for the future.
- So you know how to design and build
- So you can learn skills and use them later in life
- Because you might be able to work with wood when your older or you can be a designer..

What do you think about Design and Technology?

- I don't really enjoy the lessons
- It's OK
- I quite enjoy Design and Technology
- It's one of my favourite subjects?

What part of the design cycle do you enjoy the most?

What are your strengths in Design and Technology?

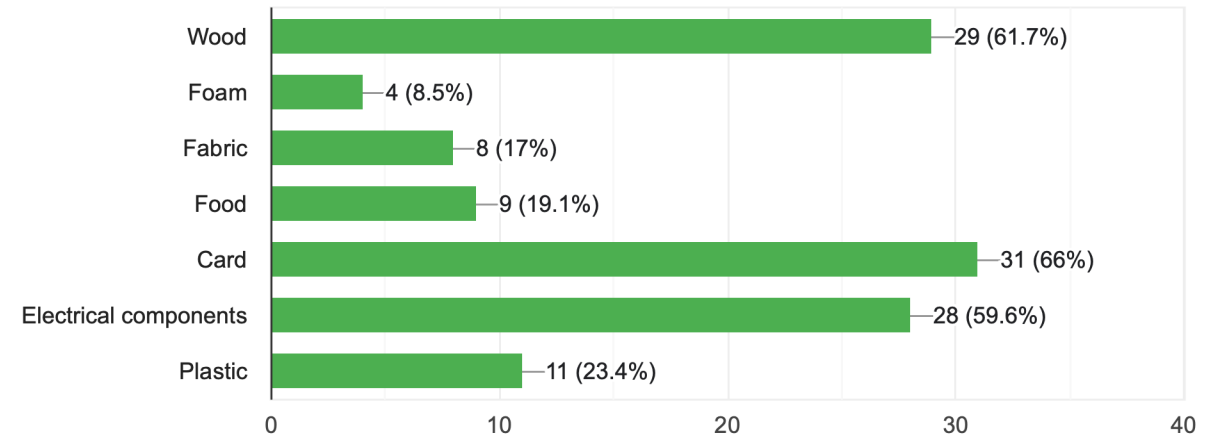

- I am good at making the design.
- Cooking and designing
- Designing the games\ideas
- Being a good team leader and helping people when they get stuck on something
- I have a creative mind so I have good ideas.
- I am good at crafting and making sturdy bases.
- Coding and designing on the iPads
- Designing because I like the process of how to make things such as our sling shot carsI love drawing so that's why I like designing so much.

How do you stay safe when working with tools?

- Keep to the rules that the teachers set for you.
- We listened very carefully to our teachers and were supervised during tricky times.
- Protective things ask a grown up/trusted adult for help.
- We do it supervised so are teachers are with us.
- Don't touch the hot bit of the glue gun.
- Sawing safely and following instructions.
- Ask a grown up for help.
- You make sure you concentrate when using tools.

Which of these have you worked with in Design and Technology this year?

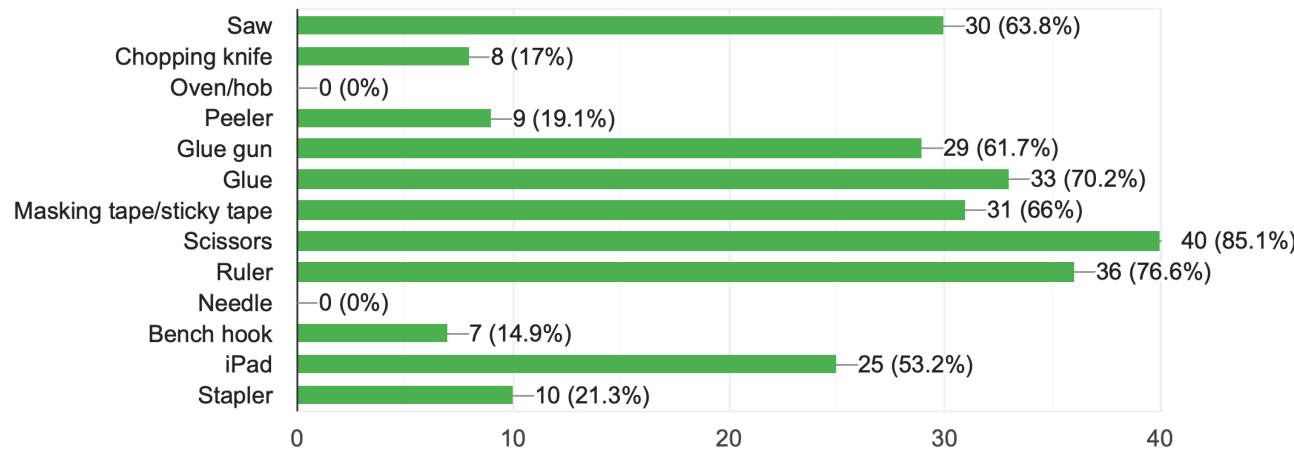

47 responses

How do you stay safe when working with food?

What tools and equipment have you worked with in Design and Technology this year?

47 responses

- Washing your hand, tie your hair up, using the right chopping board.
- Wash hands, don't touch raw meat, and use knives safely.
- A claw grip, washing hands and following advice.
- Wash your hands and never eat what you are working with.
- Making sure that you being careful with sharp knives.
- Make sure if you need help ask for it.
- Using the right colour chopping board.
- Make sure you are being you are being careful with tools.

What three words
would you use to
describe Design
and Technology?

Year 3

- Castles
- Nets
- Construction
- Structures
- Turrets

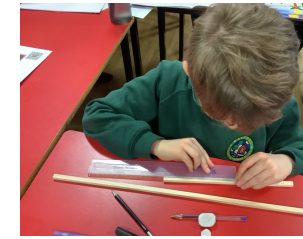

Year 4

- Chassis, wheels and axles
- Sling shot cars
- Building a stable structure
- Air resistance

In Design
and
Technology,
we have
been
learning
about...

In Design
and
Technology,
we have
been
learning
about...

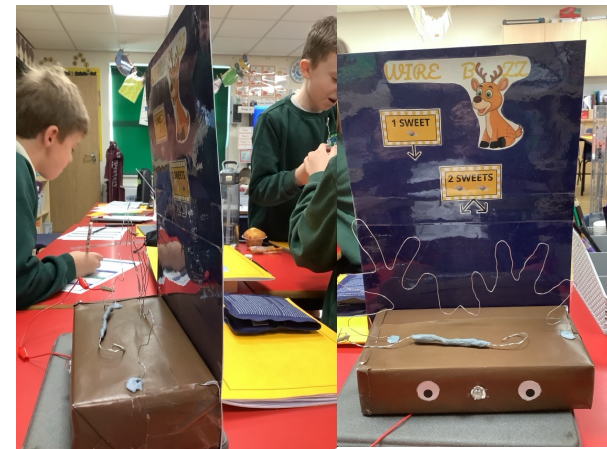

Year 5

- Mechanisms
- Cams and axels
- Building accurate structures
- Automata toys

Year 6

- Electrical circuits
- Insulators
- Circuits
- Buzzers and batteries

- Showing us new skills in a lesson.
- Showing us pictures on the board.
- Writing comments in our books.
- They might ask us a question to 'Purple Polish'.
- Talking to us and telling us how we are doing.
- Supporting us to use new equipment that could be dangerous like saws.
- If you put your hand up, they will help you.
- Teachers help us to remember more by doing Flashback 4s.
- We use knowledge Nuggets.

How our
teachers help
us and give us
feedback...
