ZooLab Visit - Thursday, 14th March

Dear Parents/Guardians

As part of National Science Week, Zoolab will be visiting us on Thursday, 14th March and will involve the showing and handling of live animals. All of the children will get the opportunity to handle some of the animals themselves if they wish.

There will be a range of animals including a corn snake, scorpion, tarantula and cockroaches to name a few. ZooLab stress that they take health and safety very seriously and you can rest assured that all of the animals handled by your child will be totally safe and unable to cause any harm. Although the children will be strongly encouraged to join in with activities it is important to note that no child will be forced to handle animals that they don't want to. Zoolab also have a strict hand washing policy that will be enforced at the end of the session.

We are sure that your child will enjoy this experience and it will be an excellent element within their topic. It is hoped that it will also stimulate a future interest in animals and related environmental topics.

The PTFA have kindly sponsored this event for the whole school.

Yours sincerely

Ms Louise George
Headteacher
