

Dear Parent,

This week, your child has been learning about online safety through the Be Internet Legends programme – celebrating **Be Internet Legends Day** on Thursday 9 December 2021.

Be Internet Legends is an online safety programme from Google, in partnership with Parent Zone. It aims to help children aged 7 to 11 be safer, more confident explorers of the online world.

Be Internet Legends Day started with an exciting live assembly – to learn more about the Be Internet Legends pledge – as well as meet some very special guests. You can watch the assembly at https://youtu.be/_iOQ3QApBOQ.

Get involved at home

There are lots of ways you can carry on the Be Internet Legends learning and fun at home.

Take a quiz together

Take on some challenging puzzles in the [Be Internet Legends Quiz](#) and see if you can build your own Internaut.

g.co/buildyourlegenddigital

Explore Interland together

Have a go at the [Interland game](#) – which you can play on any internet browser. Help your child complete internet safety challenges and see if you can get to the next level!

Watch the Legends Family Adventure

End your legendary day by watching the [Legends Family Adventure](#) short films – created with Aardman Studios. Help Lumen find their teddy bear and learn how to dodge a Phisher, a Cyberbully and a Hacker along the way.

We wish you a legendary Christmas holiday. And remember: if your child is getting a connected gift for Christmas, make sure you have set up parental controls and security settings to make sure they can start having fun more safely and confidently.

We'd love to see what you get up to at home. Let us know by sharing online, using the hashtag **#BILDDay** and tagging in your school!
