

## Quick Practice - Phonics

### Learning objectives

40-60+ months:

- Hears and says the initial sound in words.
- Can segment the sounds in simple words and blend them together and knows which letters represent some of them.
- Links sounds to letters, naming and sounding the letters of the alphabet.
- Begins to read words and simple sentences.
- Uses some clearly identifiable letters to communicate meaning, representing some sounds correctly and in sequence.

### Early Learning Goal: Reading and Writing

- Children read and understand simple sentences. They use phonic knowledge to decode regular words and read them aloud accurately.
- Children use their phonic knowledge to write words in ways which match their spoken sounds.

## Activity 1 - Labelling sounds

1. Pick a letter sound:

s a t p i n m d g o c

Write it on a sticky note or label.

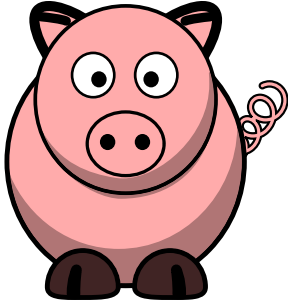

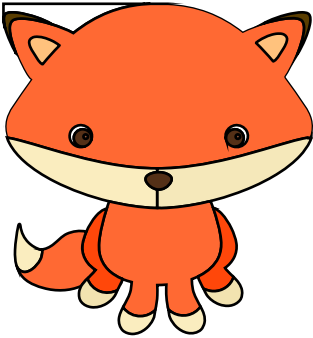

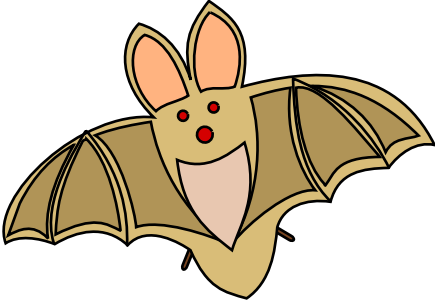

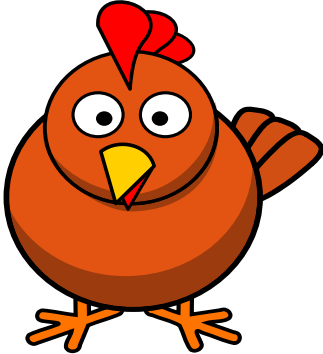

Can you find an item that starts with the letter sound? Stick the note on it. Try again with a new letter.

2. Draw a picture here of the things you found in the box.

## Activity 2 - Initial animals

1. Look at the animals. Fill in the letters to start these words:

		
<input type="text"/> og	<input type="text"/> at	<input type="text"/> ig
		
<input type="text"/> ox	<input type="text"/> ow	<input type="text"/> at
		
<input type="text"/> at	<input type="text"/> en	<input type="text"/> am
